

Without the radio station "Air 1" in my area, I would not have access to their type of format which is inspiring and upbeat, and that I greatly enjoy. If "Air 1" is diminished or removed by an LPFM station many people whom I know would be extremely disappointed by not having "Air 1's" programing, announcements, and inspirational service. They continually provide a means by which the community as a whole has access to counsoling and services to those in need. Thank you in advance for not taking "Air 1" away from my area. Sincerely, A. Caruso
